

LEADER
CABLING SYSTEMS

⇒ THE COMPANY

→ Leader Cabling Systems is a leading Western Australian specialist in design, installation and maintenance of communications cabling, network hardware, wireless solutions, security, fire, lighting and electrical services.

→ Our excellence in support philosophy combined with our quality of work and experience with projects varying in complexity and budget has allowed Leader Cabling Systems to grow from strength to strength in an ever increasing competitive market.

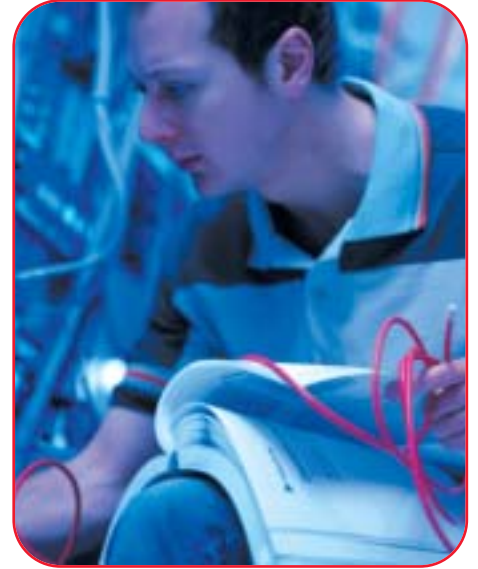

→ Since 1996 Leader Cabling Systems has provided a range of solutions, with total quality control and dependability which has made the company an obvious choice for any type of communications or electrical installation.

Excellence in Support

➤ THE MANAGEMENT ➔ communications electrical installations

➔ Leader Cabling Systems has developed a reputation of dependability. Work is completed within agreed time frames and is executed with diligence, regardless of size.

➔ An experienced Project Manager is assigned in every undertaking to maintain one on one contact between the client and on site personnel. This allows for an efficient service base becoming effective from the transformation of the initial plans to working status, through to final completion of every project.

➔ Leader Cabling Systems offer added services. All drawings and specifications are carefully scrutinised with a focus on making installation cost effective and efficient.

➔ THE SERVICES

- ➔ Communications cabling
- ➔ Design of structured cabling systems
 - ➔ Supply and installation of voice and data networks
- ➔ Fibre Optic installation and testing including fusion splicing
 - ➔ Certification of cabling installations
- ➔ Electronic documentation of installations
 - ➔ PABX installation and relocation
- ➔ Wireless and microwave installations

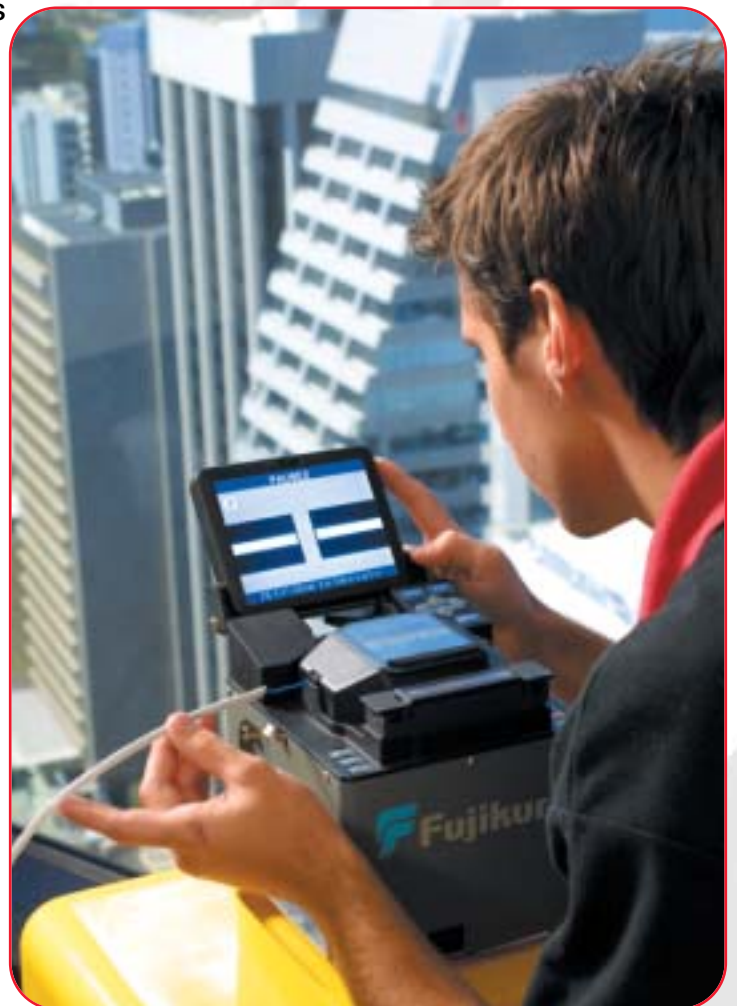

- Supply and installation of UPS and standby power supply
- General lighting and power installations
 - Intercom and door access systems
 - Fire and intruder alarm systems
 - Interior lighting design
 - Maintenance programs
 - 24 hour call out service

➔ THE EQUIPMENT

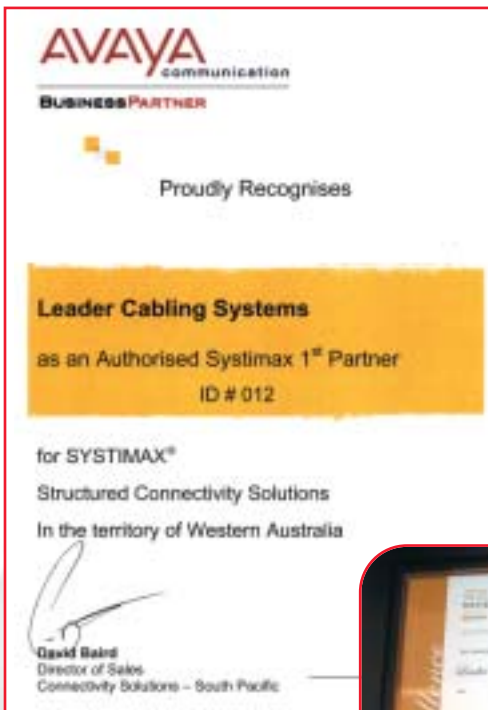

- ➔ MIMS Cable Termination Kit
- ➔ Fluke and Wire Scope Network Testers
 - ➔ CMS Microtest Software
 - ➔ Fibre Optic Termination Kit
 - ➔ Fibre Optic Fusion Splicer
- ➔ Optical Time Domain Reflectometer
- ➔ Fibre Optic Light Source and Power Meter
 - ➔ Auto CAD Drafting Software
 - ➔ Lux Light Meters
 - ➔ RCD Test Units
- ➔ Fleet of fully equipped vehicles

→ THE CHALLENGE → THE SOLUTION

→ communications electrical installations

- To embrace change to keep ahead of competition and to provide the most up to date information technology for every project
- To continue to provide the appropriate solutions to meet with current and future needs of each individual client
- To define efficient strategies, whilst working within budget and allowing for future upgrades as technology advancements evolve.

→ Leader Cabling Systems personnel remain at the fore front of change.

→ Regular training is implemented to ensure project needs are state of the art and relevant to the overall operation of the completed design.

Excellence in Support

- Innovative designs
- Quality Installations
- Exceptional service
- Value for money
